

CINEPAR 2500W (Ref : 286N)

The very popular CINEPAR 2500W is the first CINEPAR light developed in the world.

Even today, the CINEPAR 2500 presents the best compromise combining a compact size and an extremely powerful light output.

Its many applications include background lighting for wide night shots, projection of light beams through building windows, powerful bounce, long throw fill, light-weight crane mounting and much more.

The CINEPAR 2500 can be focused through a set of diam. 245mm lenses.

It is compatible with both 2,5KW magnetic ballast or 2,5/4KW electronic ballast w/PFC
